## Index (Register)

The index covers only taxa which have been treated in some detail. New taxa and new combinations are printed in boldface. \* indicates an illustration (also of chromosomes), m refers to a distribution map.

Nedanstående förteckning upptager endast sådana taxa, som blivit i något avseende utförligare eller mera speciellt behandlade. Nya taxa och kombinationer betecknas med fetstil. \* anger avbildning (även av kromosomer), m att karta förekommer.
